Majid Fotuhi, MD PhD
Founder, Chief Medical Officer

NeurExpand BRAIN CENTER

A Better Future in Mind

April 2, 2015

Dear Patient;

At some point in every physician's career, it becomes necessary to close his or her practice. I regret to inform you that this point has arrived for me and my colleagues at the NeurExpand Brain Center, Dr. Margaret Timmons, Dr. Raya Wehbeh, and Dr. Zakiya Wynn. We will be closing our final clinic on Wednesday, April 15th. This is in part due to financial difficulties in running a medical practice these days and in dealing with insurance companies and Medicare.

Your medical issues and your care remain a high priority for me. I have attached a list of my neurology colleagues who have agreed to see my patients. You can also call our office until April 15th, 2015 if you have specific questions or needs.

Your medical records will be available from Clary Document Management Inc. after May 18th, 2015. Instructions on obtaining copies of your records are included with this letter. If you or your physician has an urgent need for you records, please contact us at 443-842-6333 or at 443-275-1687.

I thank you again for giving me and my colleagues the opportunity to care for you. I myself plan to shift my focus to neuroscience research and public health education regarding brain health and prevention of late-life Alzheimer's disease. I will continue to run our clinical trial, under the name of Memosyn Neurology Institute. In case you need to reach me after April 15th, you can call our Memosyn office at 443-275-1687.

Sincerely;

Majid Fotuhi, MD PhD
